This Heritage walk helps you explore the Delhi's rich, culture, heritage, history and cuisine in a fun and exciting way. The tour includes exploring the streets of Old Delhi on foot and on cycle rickshaw. Humayun's Tomb:

The mausoleum complex of Humayun, India's second Mughal Emperor, was commissioned by his widow in 1565 and was the first garden tomb to be built in India, taking seven years to complete. Humayun had travelled widely in Persia and Central Asia during his lifetime, and many of the architectural principles he brought back from these journeys were incorporated into the building at his wife's instructions. With its double domes, decorative inlaid marble and vast garden with pools connected by channels, this 16th Century building set the stage for the style that culminated in the Taj Mahal almost 100 years later.

Qutub Minar

Standing tall at 73-metres, the tower consists of 5 storeys with a flight of spiral stairs leading to its top. The walls are adorned with decorative motifs and Quranic inscriptions. At the foot of the tower lie other monuments of historical significance, such as the Quwwat-ul-Islam Mosque and the Iron Pillar of Delhi. The Amazing race Australia used this site as a pit stop in the second series. Visitors can take advantage of stunning photo opportunities.

Day 3: Day 3 Delhi- Agra

Its palaces, grand mosques and elaborate public hall are crafted from pink-red sandstone and are testament to an era when Indo-Muslim art, strongly marked by influences from Persia, was at its height. Emperor Shah Jahan, who built the Taj Mahal for his deceased wife, was imprisoned by his son Aurangzeb in Agra Fort. He is said to have died in the Musamman Burj, a marble tower he himself built, with one of the most alluring views of the Taj Mahal.

Taj Mahal (Closed on Fridays)

The iconic Taj Mahal is not only an architectural masterpiece, a UNESCO World Heritage Site and one of the new Seven Wonders of the World – it is also the enduring legacy of a royal love story. It was commissioned in the 17th century by the Mughal Emperor Shah Jahan after the death of his third and favourite wife, Mumtaz Mahal, to serve as her final resting place and a symbol of his eternal affection for her. Combining Islamic, Persian, Ottoman Turkish and Indian design elements, it's an awe-inspiring structure of elegant domes and white marble, which changes colour along with the light – pink at sunrise, pearly white in the afternoon and silver-gold in the full moon.

Hawa Mahal (Palace of Winds)

One of Jaipur's most recognised buildings, the Hawa Mahal (Palace of Winds) is known for its iconic façade. Small windows, decorated with intricate latticework create a honeycomb-like appearance. The original intention of the lattice was to allow the royal women to observe everyday life in the street below without being seen. The cooling effect, provided by the breeze passing through the small windows, gave the palace its name. Built in 1799 by Maharaja SawaiPratap Singh, the unique construction was originally designed to look like the crown of Krishna

Built by Jai Singh, the first Maharaja of Jaipur who founded the city in 1727, the observatory is one of a handful.
